# METRO WELDING SUPPLY CORPORATION

12620 Southfield, Detroit, MI 48223 [www.metrowelding.com](http://www.metrowelding.com)  
PH. (313) 834-1660 FAX. (313) 835-3562

## Equipment Rental Program

Metro Welding Supply Corp offers weekly, monthly, long term, and rental with purchase option plans on a wide variety of welding and cutting equipment to our commercial and industrial customers. We provide delivery service throughout the South Eastern Michigan region.

The following is a partial list of our rental equipment offering. We also have many other types of welding, positioning, and cutting equipment available for any type project.

**Processes:** ARC, MIG, DC-TIG, FCAW

4-Pack and 6-Pack 350A CC/CV multi-process welder racks with 200-600 VAC Input power connection via power connection panel. Welding cables and LN-25PRO feeders available to complete set-up for ARC or MIG welding.

**Processes:** DC Stick, TIG, MIG & AC Generator

Multi-process propane engine driven welder/ generator for Stick, MIG, TIG, FCAW and carbon arc gouging.  
Welding Output – 305 amps CC/CV DC  
Generator Output – 9 Kw 115/230V AC

**Process:** Portable MIG Wire feeder

MIG and FCAW process portable feeder for use with engine driven welders with CV output. Accepts 12" wire spools  
Rated Output – 300A @ 60% duty cycle

**Processes:** DC MIG, FCAW

CV305/LF-72 MIG welding package for fabricating, .035" - 1/16" wire size range. Comes with R/G.  
Input – 208/230/460 VAC 3PH  
Rated Output – 305 amp DC @ 60% duty cycle

**Processes:** MIG, Pulsed-MIG, FCAW

Power MIG 350MP microprocessor controlled pulsed MIG welding for critical applications on steel, stainless steel, aluminum, and nickel alloys.  
Input – 230/460/575 VAC 1PH  
Rated Output – 300 amps @ 60% duty cycle

Welding Supply Corp.

# METRO WELDING SUPPLY CORPORATION

12620 Southfield, Detroit, MI 48223 [www.metrowelding.com](http://www.metrowelding.com)  
PH. (313) 834-1660 FAX. (313) 835-3562

**Process:** Push-Pull Torch/ Feeder System

Air-cooled 25 foot push-pull MIG gun for feeding difficult wires, such as; silicon bronze, stainless steel, and aluminum alloys. Use with the Power MIG 350MP synergic welder.

**Process:** AC/DC TIG welding

Water cooled AC/DC portable welding package for tool steel, stainless steel, aluminum, and high alloy welding.

Square-Wave adjustable output for heavy section aluminum.

Input – 208/230/460 V 1 PH.

Output – 275 amps AC/DC

**Process:** Plasma Arc cutting, gouging

High quality cutting up to 3/4" on steel, stainless steel, and aluminum. Adjustable output with 20 Foot torch leads for cutting and arc gouging most materials.

Input – 200-600 VAC 1/3 PH. 75 psig clean dry air

Output – 65 amps DC @ 100% duty cycle

**Process:** Stick, MIG, and TIG welding accessories

Welding cable extension packages available in 50 foot and 100 foot assemblies.

MIG & TIG torches, replacement parts, welding filler metals, and compressed gases supply to handle 100% of your job requirements!

**Process:** Welding fume collection

Portable welding fume collector with 10 foot articulating capture arm. Capacity: 750 CFM

Input – 120VAC 1-PH 13.8 amps
